

REMARKS

Applicant has amended claims 21, 22 and 25, and the corresponding parts in the specification to change “frequency domain” to “time domain”. The support for the amendments can be found on Figure 7 and p. 9, line 23 to p. 10, line 2 of the specification: “The FFF output is then transformed into time domain ... by the NK-sized IFFF block 250 ... the residual inter-symbol interference in the corresponding code channel is regenerated and cancelled ... in block 280.” No new matter has been introduced.

Respectfully submitted,

Kenneth Q. Lao
Attorney for the Applicant
